

# IT'S TIME FOR A CHANGE

## INTRODUCING **eBrief**

### Intelligent Incontinence Monitoring

A groundbreaking intelligent incontinence monitoring system, eBrief is changing how long-term care facilities monitor urinary incontinence. With its remote, real-time moisture alerts, eBrief ushers in a long-awaited change in addressing senior incontinence.

**Disposable Moisture Sensor**  
eliminates the necessity for  
cleaning or reattaching the  
sensor for reuse.

**Applies to Any  
Incontinence Product**  
offering facilities product  
purchase flexibility.

**Real-Time Alerts**  
sent directly to POC  
devices, reducing the need  
for routine rounds.

**Unique Value Proposition**  
generating additional  
revenue streams for  
facilities.

**Compatible Application**  
offering facilities product  
purchase flexibility.

**Reduces Health Risks**  
with decreased time  
Users are in contact with  
wet brief.
