eBrief

Intelligent Incontinence Monitoring

A groundbreaking intelligent incontinence monitoring system, eBrief™ is changing how senior care communities monitor urinary incontinence. With its real-time moisture alerts, eBrief™ ushers in a long-awaited intelligent change for senior residents and their caregivers.

Commitment of Care

eBrief™ Partner Communities are committed to enriching the lives of their cherished senior residents. By implementing eBrief™ sensor technology, these communities are investing in improved health outcomes for our greatest generation, and family peace of mind.

What is eBrief?

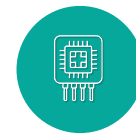

Utilizing a small, disposable, and battery-free moisture sensor, eBrief™ provides incontinence alerts in real-time. These intelligent notifications ensure that senior residents are connected to their caregivers, enabling timely assistance whenever and wherever it's needed.
